

The Committee of 100
on the Federal City

Celebrating 100 Years of Planning Advocacy

NOW ACCEPTING NOMINATIONS for Vision Awards '24

Since its founding in 1923, **The Committee of 100 on the Federal City** has championed excellence, responsibility, and activism in public policy, design, education, and land use planning that protects Washington, DC's unique physical character and sense of place. The Committee's vision of a **beautiful and livable city for all** recognizes that the District of Columbia is *both* our Nation's Capital as well as (importantly) **home** to almost 700,000 residents.

Beginning in 2002, the Committee inaugurated its acclaimed **Vision Awards** to recognize excellence by others in achieving the Committee's vision. What (or who) is recognized? – local activism (by an individual or group of citizens), projects (in concept or fully realized), notable achievements by elected officials, neighborhood or nonprofit organizations, professional associations, private firms, academic programs, and/ or units of local and federal government.

To date, over 100 awards have been given to recognize excellence in such areas of interest as:

- Planning
- Historic Preservation
- Transportation
- Housing
- Parks and Recreation
- Zoning
- Environmental Protection

The Committee of 100 invites nominations in protecting and enhancing the District's built and natural environment

Nominations Due: August 19

How to Nominate

For Vision Awards Nomination Form with Instructions
